

CASE STUDY

Supported Health Care Association's Efforts to Amend National Model Legislation

Challenge:

Amend the national model legislation

Stateside Solution:

- We represented the client at meetings of a national state officials' policy group.
- We provided a survey and analysis of state statutes and rules addressing the policy issue.
- We coordinated communications with industry allies and opposition stakeholders.
- We drafted substitute model legislation and represented the client on the policy group drafting committee.
- We vetted amendment language with policy group and client association members.

Results:

Model law language was adopted by a national state officials' policy group, which led to favorable state legislation enacted the following session.
