

STATE GENERAL POPULATION COVID-19 VACCINE

On April 6, President Biden announced that his new goal is to have all individuals 16+ eligible for the vaccine by April 19. President Biden's original goal was May 1. Alaska was the first state to make the move to offering vaccines to all residents over the age of 16 on March 9, two days before the President's announcement. All states are scheduled to meet the new April 19 deadline.
